How the Program Works

1. **Register** at fauquierlibrary.org/services/kids/ or at any Fauquier Public Library location, then **pick up a reading log** at your local library or download one at fauquierlibrary.org.

2. Color a square on the log for **every book you read**. Even rereading the same titles counts, so read and color away!

3. After you've read 100 books bring your log into the library to receive a reward and your next log.

4. When you reach 1,000 books you'll receive a certificate and special book bag. We'll also post your picture on our **Wall of Fame**.

5. If you prefer to use an online tool to track titles you may download the **1000 Books Before Kindergarten app** in the App Store (iPhone) or Google Play (Android).

Tips for How to Raise a Reader

Babies start to develop language skills from the day they are born. When we talk to children we help them build their vocabulary and learn how language works.

As you go about your daily activities—dressing, shopping, doing household chores—talk to your little one and describe what you are doing.

Visit **DaybyDayVa.org** or ask at the library for more ideas of activities to promote early literacy skills.

Tools at the Library

Not sure where to start? Fauquier Public Library has an assortment of Recommended Reading Lists that can help you select the right book based on your child's age and interest. Check at the reference desk or ask your local library staff.
